Haitian Sports Foundation Updates

HSF Clinic

HSF clinic continues to serve the local population. For the past quarter we processed 144 patients, provided free medication and basic consultation.

Physical construction of the clinic is completed. Soon it will be equipped with appropriate lab materials i.e microscopes, refrigeration, electricity and water supplies.

HSF Trade School

Construction of the trade school has begun. It will be executed through four phases. Phase one which includes the building foundation is now complete. View our updates through our website.

- ❖ The annual spring HSF camp has been postponed due to the global pandemic. We also decided to put on hold all classes (Karate, Computer literacy, Basketball, Music and Performing Arts) until further notice including the inauguration of the HSF lab.
- ❖ Negotiation has begun between HSF and a major professional school in Haiti to train up to 20 students on solar energy and entrepreneurship in Anse-à-Veau. Our goal is to prepare up to 50 entrepreneurs by July 2021. Up to now, we have not found a mutual negotiated agreement to facilitate such training.
- ❖ As of today, Haiti has registered 15 positive cases of individuals affected by the corona virus. The government has identified and requested 433 individuals stay in quarantine at home while 12 others to be under medical supervision at different local hospitals.
- ❖ Newly HSF Georgia Chapter continues to build relationship in Atlanta.

This quarter's trivia question: When did HSF begin its operation? Send us an email with the right answer and you will be contacted for a prize.

Mr. Diègue Blendel

Mr. Diègue Blendel has held the position of HSF Haiti Sports Monitor/Coordinator for the past six years. His duties include day to day operational activities.

This quarter Haiti's national dish:

Griots with Rice & Beans

Griots are made by boiling and then frying cubes of pork. Griots are served as the main dish.

This quarter Haiti's proverb:
"Bay piti pa chich"

Translation:

To give little doesn't mean that you are stingy.

Meaning:

It's not because we give little that are necessarily stingy or that we have bad intentions.

SPONSORSHIP

Would you like to sponsor a child's education for one academic year? Cost is \$ 300.00 per academic year. Payment can be made via PayPal. You will receive regular updates of the child's progress.

CONTRIBUTIONS

We believe in making a difference one child at a time. Your contributions enable us to continue the great work in Haiti; preventing childhood delinquencies, uplifting the skills of the children, providing entrepreneurship studies while providing basic healthcare to the people in the Nippes and Anse-à-Veau regions.

Contact us via phone or log onto our website:
www.haitiansportsfoundation.org

We are a 501c3 organization. All of your contributions are tax deductible.
